## Disposable Isolation Gowns

### PRODUCT DESCRIPTION

**Medstock's AAMI Level 4 Isolation Gowns** are made from polypropylene spunbond nonwoven (PPSB) material, which is designed for excellent breathability and comfort. The outside layer of the isolation gown is coated with polyethylene (PE) material, which provides a waterproof and impermeable barrier against liquid borne microbes (e.g. bile and blood).

- + Can be used in the following settings: Med/Surg Unit, Infection Control and Phlebotomy.
- + Durable and lightweight, yet providing strength and protection for tasks.
- + Tape design and heat-sealed seams provide high performance on fluid impact and hydrostatic pressure (protection against liquid and particles).
- + Gown ties at the waist and neck to allow for ultimate protection and is easily adjustable to suit your body/size.
- + Unisex and Universal Size

### STANDARDS

#### STANDARDS: ANSI/AAMI PB70:2012
